Ted Lambert Math 120jD01

1. I received a course syllabus.

Y= 21 N= 0 _= 0 ?= 0

2. The instructor's teaching is effective.

A= 14 B= 5 C= 2 D= 0 E= 0 _= 0 ?= 0 Score = 3.5

3. The instructor is knowledgeable in the subject area.

A= 19 B= 2 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.9

4. The instructor clearly explains new ideas (new knowlege/skills).

A= 15 B= 5 C= 1 D= 0 E= 0 _= 0 ?= 0 Score = 3.6

5. The instructor encourages critical thinking and analysis.

A= 17 B= 3 C= 0 D= 0 E= 1 _= 0 ?= 0 Score = 3.8

6. The instructor maintains my interest.

A= 13 B= 7 C= 0 D= 1 E= 0 _= 0 ?= 0 Score = 3.5

7. The instructor displays enthusiasm when teaching.

A= 18 B= 3 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

8. The instructor encourages class participation.

A= 16 B= 3 C= 0 D= 1 E= 1 _= 0 ?= 0 Score = 3.7

9. The instructor deals fairly and impartially with students.

A= 17 B= 4 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

10. The instructor treats students with respect.

A= 20 B= 1 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.9

11. The instructor is punctual-classes begin on time.

A= 20 B= 1 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.9

12. The instructor makes full use of the class period.

A= 25 B= 0 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 4

13. The instructor makes good use of class time.

A= 18 B= 3 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

14. The instructor uses audio-visual equipment effectively.

A= 12 B= 6 C= 2 D= 0 E= 0 _= 1 ?= 0 Score = 3.5

15. The instructor speaks loudly enough so all students can hear.

A= 17 B= 3 C= 0 D= 0 E= 0 _= 1 ?= 0 Score = 3.8

16. The instructor clearly explains course objectives.

A= 18 B= 3 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

17. The instructor presents lessons in agreement with the course objectives.

A= 16 B= 5 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.7

18. The textbook/class materials match course content and instructor's lectures.

A= 19 B= 2 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.9

19. The homework is appropriate for the course.

A= 17 B= 4 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

20. The tests are appropriate for the course material covered.

A= 17 B= 4 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

21. The grading system is fair and consistent throughout the course.

A= 25 B= 1 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.9

22. Students treat the instructor with respect.

A= 18 B= 3 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

23. Students feel free to ask the instructor for assistance.

A= 18 B= 3 C= 0 D= 0 E= 0 _= 0 ?= 0 Score = 3.8

24. Students feel free to express their opinions or ideas.

A= 16 B= 3 C= 1 D= 0 E= 1 _= 0 ?= 0 Score = 3.7

25. I would recommend this instructor to a fellow student.

Student Written Comments

for

TED LAMBERT

MATH 120 D01

1. The evaluation form was completed. No student written comments were given.
2. The evaluation form was completed. No student written comments were given.
3. The evaluation form was completed. No student written comments were given.
4. Material needs to be more basic. The ways described in back are confussing.
5. I really like this teacher. He's able to teach the students in a way the students can understand, and if anyone has trouble he has no problem assisting them. I will most defiantly be recommending this teacher to others.
6. I highly recommend this instructor to other students. There is nothing I would change about this course. All of the above statements I honestly strongly agree with.
7. I believe he has a very good method of teaching. What I like is that we have to read ahead that way we understand better.
8. I like the idea of working w/other students. Sometimes they can explain it in a different perspective. Continue using your book, because it is the best to follow along with. Continue the music playing I enjoyed it! You took the time to explain things and clearly. Thank you for being a great teacher.
9. This class is really good. I learned some useful things that I can do for my future such as annuities. The only thing is that some chaptes need a little more time on because they are so confusing. Other than that you are a really good teacher
10. The instructor for this course was an outstanding teacher. He knew all of the material and what he was teaching us. I would recommend him to a lot of my friends.
11. I liked using your book, it is very clear & easy to understand. The only problem with class is we go through some chapters quick when we probably should have spent more class time on them
12. I liked how you taught Dimensional Analysis. It made it very simple to understand chemistry problems. The last 2 chapter were sometimes unclearly. But other than that your class Rocks.
13. Mr. Lambert has been the best teacher I have had so far at TMCC. It would be in the best interest of the school to keep him around as long as possible
14. This class has prepared me for future math classes; the teaching is effective and the material is direct and easy to learn. Dr. Lambert's book cuts through a lot of (" ? ") that most text books don't and for that I'm thankfull, the class is difficult at times as for as some of the material is concerned but the instruction doesn't fail to explain the material better.
15. Even though it helps to read ahead in the textbook, sometimes lectures moved a little too quickly when explaining new ideas and concepts. Especially in the later chapters of the text book. Otherwise, this is one of the easiest math courses I've ever taken because everything is so well organized.
16. Very good class overall and I enjoyed it, however, some of the material can be boring sometimes. If you elaborate more on how the material would benefit the students then I think it would make it easier for them to understand, and keep focus on the task at hand.
17. Keep up the music. Helps get me thinking and its great music. The book you wrote explains most of the concepts clearly, but if I don't get it, your lecture (If I am a (?)) makes it comprehensible
18. I think you could show how to work the calculator on the projector screen more.
19. I like the way he explains step by step and that he teach us how to solve a problem in the calculator or by hand.
20. The instructor is very effective with his teaching on the material, and the book is a lot easier to follow than the old book

21. I always thought I was “stupid” because I always struggled w/math. Now I realize having a good teacher makes a big difference. My math background is not very good. But I’ve done ok this semester w/hard work and a good teacher :o). I like the book and it is easy to follow w/lectures and assignments. Thanks for everything!

Student Written Comments

for

TED LAMBERT

MATH 120 D02

1. The evaluation form was completed. No student written comments were given.
2. Thank you
3. mr lambert keeps my attention in class during our instruction.
4. Dr. Lambert is extremely knowledgeable about his material, he takes as much time as needed to be sure that every student is caught up. His book is well written and and does a great job of oncompassing and explaining all aspects.
5. Pls. continue doing your tecniques in teaching the class. The way of teaching was effective. Pls. accept late work at the end of semester because other classes do that and it helps students more. Special projects to retake exam was a good idea.
6. You are an excellent teacher. I think the reading assignments are very useful. I like the book set-up, it makes things easier. One thing that didn't really do me any good, or bad were the chapter essays. I liked the idea of the portfolio though, it helped me keep things more organized. Fantastic job overall! :o)
7. **THE COURSE COINCIDES WITH BOOK VERY WELL, THE PRE-READING ASSIGNMENT IS A GOOD TOOL TO FORESEE THE CONTENTS AND GET THE MIND SET OF THE MATERIAL TO BE COVERED. THE TESTS ARE A BIT TOO MUCH FORMULA GASED WHERE IF YOU DIDN'T WRITE ALL OF THEM BOWN, AND ITS NOT PROVIDED, IT IS HARD TO PASS THE TEST.**
8. I liked the groups, when we worked on problems. There should be more of those to have a better understanding of work problems. Also more opportunities to make up absent stamps.
9. It would be helpful if homework was required to do and turn in every day. Get class more involved in your lectures. Write problems on the board more and have students try and figure it out.
10. I'm glad I look this class it really helped a lot. The teacher easily explained the topics well. I'd never really been good at math so I was surprised how well I got this class. I liked how he makes sure everyone gets it before moving on.
11. I think it would be helpful if homework were checked every class like reading exercises.
12. I have taken this class before and I like how much it has changed. I like the book and teaching meathods are great! Im not a fan of the portfolios but they do keep me on task.
13. honestly this class was set up well. I liked the book, being able to write in it and not having to turn in "homework" everyday but the readings. I like the music before class its my favorite!
14. This is a very good course. The one comment I have is that it is that it is a lot of information to take in one semester, especially for those who don't want to follow into higher maths. Is there a way to break it up? Is all the information we learn necessary? Im just thinking that there might be a way to make this class a little more attainable for those particular students who have to take it for gene d requirements. Great teaching!
15. **DEFINITELY MY BEST CLASS THIS SEMESTER... GOOD SUBJECT & GREAT TEACHER =] ALREADY RECOMMENDED OTHERS TO THIS TEACHER.... MAYBE MORE QUESTIONS ON TESTS THO?**
16. From my point of view I thought the course was well taught and I would not change a thing, except for the typo's in the answers section.
17. **THEODORE LAMBERT IS A TEACHER WHOM MAKES YOU WANT TO BE IN HIS CLASS EVERYDAY. HE SHOWS A LOT OF ENTHUSIASM WHEN HE TEACHES AND HE INCLUDES THE PROPLEMS WITH REAL LIFE SITUATIONS**

18. A few things in this course stuck out in my mind, the music at the beginning of class every day seemed very much to get the mind in gear for mathematical thinking. The way the concepts were taught was extremely effective. Instead of just (?) a surface understanding of the material, we gained a much deeper understanding of it.
19. I hated math...but you changed it a little :o) I'm glad that you were my Math teacher. Thank you. (However, I hoped we could get a study guide for each exam.) It would help students more!
20. You do realize I suck at this part. Okay...um...I enjoyed the music at the beginning and really enjoyed reading questions after I figured out it was okay to add humor to them. Didn't really like having homework but don't think you're going to change that. Other than that keep it as it is. You're one of the few that can get me to semi-grasp math. Congratulations you didn't confuse me. Although that is my normal state of mind.
21. I liked how you did the HW, but maybe give us 5 pts. Each time so we have a reason to do it, plus it would help raise our grades a little. The tests were pretty hard, but the 3x5 not card really helped. Maybe get students more involved by doing some hands on projects in class, or group work for points, Other than that, I really enjoyed your class & appreciated math for the first time in many years!

Student Written Comments
for
TED LAMBERT
MATH 120 D06

1. The evaluation form was completed. No student written comments were given.
2. The evaluation form was completed. No student written comments were given.
3. This course is interesting and the instructor keeps things light. The homework review everyday is extremely helpful. The math center does seem to not be able to help with problems in his book, but say they are knowledgeable in math.
4. DR. LAMBERT DEFINITELY HOLDS INTEREST. I THINK WE NEED MORE TIME ON LINEAR REGRESSION. THE REVIEWS ARE HELPFUL. THE ANNUITIES WAS THE BEST PART. IT REALLY HELPED WITH APPLYING MATH TO EVERYDAY LIFE. IT HINK THAT WAS AN IMPORTANT SECTION. I HAD DIFFICULTY WITH CH. 6. FELT LIKE I DIDN'T GRASP ANY CONCEPTS.
5. some subjects aren't explained clear enough test aren't Formatted in an easy to understand manner
6. I'm a really bad math student
7. The instructors teach was very effective and he is very knowledgeable in this subject. I believe some more time should be spent on the end of chapter 5 because I am a little sketchy in this area.
8. Dr. Lambert is an excellent teacher! The only thing I would like to see change is – there should be more example problems available, maybe online or as a handout at the beginning of the semester. More example problems helps students with the steps to solving certain problems.
9. The instructor makes the class interesting. I haven't had fun in math before but he makes it totally enjoyable. I expecially liked it when the topics are need to solve real life practical problems and when he throw in interesting trivias for the current topic. The music he plays before the class begins also help too.
10. Good teaching methods
11. Great class and instructor
12. I completely enjoyed the class event though I struggled with it. He helped me whenever I needed it! I love the way the book is set up, and the way the class was conducted. I love the relaxing atmosphere, and the application of what we were learning to our lives! The portfolio is a great way to keep up with the class!
13. very well taught class. The professor knew what he was talking about and made it fun. If I took another math class I would make sure it was Professor Lambert. Also His book made it really easy to understand. Anytime I needed help he would explain things in ways I would understand.
14. best math instructor I have ever had! It's great to have a text book designed specifically for the class. Explaining things thoroughly and with the ideas behind them really helped me in comprehending the material.
15. The first class was intimidating, but after a few weeks everyone seemed to get the hang of things. I personally learned a lot from Ted. The tests are the worst part of the class. They are all comprehensive, so there's always so much material to study. Overall, I think he is a good instructor.

Student comments have been typed as they appear on the student appraisal form.

A= 17 B= 5 C= 0 D= 0 E= 0 _ = 0 ?= 0 Score = 3.7

20. The tests are appropriate for the course material covered.

A= 1 B= 5 C= 0 D= 0 E= 0 _ = 0 ?= 0 Score = 3.7

21. The grading system is fair and consistent throughout the course.

A= 18 B= 3 C= 1 D= 0 E= 0 _ = 0 ?= 0 Score = 3.7

22. Students treat the instructor with respect.

A= 18 B= 4 C= 0 D= 0 E= 0 _ = 0 ?= 0 Score = 3.8

23. Students feel free to ask the instructor for assistance.

A= 18 B= 4 C= 0 D= 0 E= 0 _ = 0 ?= 0 Score = 3.8

24. Students feel free to express their opinions or ideas.

A= 16 B= 5 C= 0 D= 0 E= 1 _ = 0 ?= 0 Score = 3.7

25. I would recommend this instructor to a fellow student.

A= 20 B= 2 C= 0 D= 0 E= 0 _ = 0 ?= 0 Score = 3.9

TOTALS

A= 420 B= 98 C= 6 D= 0 E= 4 _ = 0 ?= 0

A= + AGREE, B=AGREE, C=DISAGREE, D= + DISAGREE, E=NO OPINION

Student Written Comments

for

TED LAMBERT

MATH 120 D07

1. The evaluation form was completed. No student written comments were given.
2. The evaluation form was completed. No student written comments were given.
3. The evaluation form was completed. No student written comments were given.
4. Good teacher and good lesson plan.
5. Ted is a good teacher. He teaches well and makes it understandable. His book is awesome, to the point, and much better than previous math books I've had. He plays music at the start of class which is a good way to start class. The stuff that has (?) to one on one (?) was not important to me (?) financial math the (?) (?) section was (?) different
6. I encourage Dr Lambert to keep the music, weird but good. Portfolios were time consuming and try to have deadlines for homework. I like the way Ch 5 and 6 were taught with no notes at first.
7. I have always had great difficulty with Math. A lot of the time the instructor is more of a problem than the material. Dr. Lambert is not only very knowledgeable, he is fun to be around. I have learned so much this semester. I would highly recommend students to take a class from Dr. Lambert. He is fair and gives students confidence in their math skills. Ted – thank you so very much!
8. good class, maybe go at a little slower pace, sometimes it was difficult to follow along, but other than that I really liked the course.
9. This is the only math instructor that has ever taught me math were I will still remember what I learned years from now! I like the way the every day class format is set up, and how we only go over one section in a day (it's not overwhelming). The only thing I would change is to have the homework do every week instead of every test. College students (as myself) tend to procrastinate! All in all this was the best, math class I have ever taken! Thank you!
10. the daily reading assignments are very helpful. I think the homework should be graded and reviewed every class period
11. I Really liked the class.
12. Dr. Lambert is the single greatest math teacher I have ever had and I have had a lot. The course is very well (?) and his teaching style is very effective. I would recommend any of my friends to take his course.
13. The portfolios helped a lot, by keeping organized and makes us review the chapter once we're done.
14. I like the fact that he wrote his own book for the class, it made it easier to follow. The review of the homework was very helpful and the lectures and homework were effective.
15. I was nervous because it had been so long since my last math class, but Dr. Lambert was very informative and helpful. The book was great. It went better with the class than any other book I've used in math. I don't really understand the point of the portfolio if math is not my major. Maybe you can explain the purpose.
16. I loved the style of teaching & how homework was given out & graded! However, I think that since time & effort/pride are put into our portfolios they should be worth some points if completed. Not a lot but some.
17. The instructor maintains the interest of all the students in class. He was really knowledgeable on what he is talking about. He teaches in a formal manner but makes the class more fun and exciting. He is a really good Math teacher.
18. I thought Mr Lambert was a great teacher I have and plan to continue to recommend him for any one taking math 120. He teaches in a way that is easy to understand and learn.

19. As a student who has struggled (?) math Dr. Lambert was a very good teacher he took his time to explain new concepts & old. I like the protoilo we had to keep. This had to be the best math class that I have ever taken but it was also challenging at the same time. I would not change a thing for this class.
20. His is a great teacher. This is the second time taking his class (120) & it was easier this time around, he did some things a little different, which helps a lot. Plus, he always makes time for us to ask questions.
21. Dr. Lambert is by far the best teacher I have ever had. It's too bad there are not more teachers like him. Not only does he know his material but you can tell he enjoys teaching. I have never been afraid to ask a question in this class. Schools should take the time to find more teachers like him.
22. Ted is a great teacher. Hes easy to approach and willing to give extra help. Sometimes he covered material too fast for me to fully understand but I still really enjoyed his class.
